Academica pro theme free

Cyber Monday sale! 30% flat off now. Using the code 'CYM30' is a legitimate free WordPress Academy theme that's good for business. How do you ask? Well first thing first, this is a free theme with no fees associated with it. You can download the theme installation components with rather ease. Hover over the mouse pointer and then install the theme directly on your computer and then put it for quick use. An organization, business, or similar format of small-sized companies that want to test the power of a stunning theme below the right can be used. This is just a look at both but a minimum version of the actual premium theme. As being minimal, we offer it for the purpose of test driving only. This theme offers limited sections with a nice layout design, page appendix, head section. You will have quick links and social media tools. Works well with other browsers, has faster loading time with effective design. We have achieved a functional and suitable WordPress theme that is for the business of education and other forms that work in parallel with it. This is just a prototype, the actual product has not yet been disclosed to you. The minimum version allows you to have a website but in time an upgrade seems inevitable. This is where the premium version comes to your help. What premium theme can offer you, so you have to check the demo and compare the chart below. You will find what you need in one of the strongest WordPress themes. Easy to use and personalized Hello, Highend makes your life easier. Panel subject optionswith the advanced subject options panel, you can easily change every detail of your theme to suit your needs. Dynamic Home Builder Home includes multiple widgetized areas and you can build and customize its structure with custom WPZOOM widgets.4 page/another LayoutsAcademica Pro comes with 4 different page layouts/post. Response and Ready RetinaHthis theme is designed automatically adapts to fit on any screen resolution on desktops and mobile devices (iPhone, iPad). Visual customization provides visual customization options for colors and fonts that match your style Brands. WooCommerce support and sell products directly from your website. Academica Pro offers a very flexible subject layout. You can change from a 3-column layout to a two-column layout with one sidebar on the left or right. You can also adjust the layout on each page separately; switch to column 3, 2, or 1 column layout on a page-by-page basis to match the content. The title includes 3 lists that can be used or disabled: If you prefer, you can use only two or 1 lists. Do you have a custom logo? Download directly from the custom theme and it will appear in the theme header. Accademia Pro 3.0: A huge update! This topic has been updated recently: Academica Pro 3.0 is a great update from the previous version: it is a completely new topic, developed with the latest coding standards in mind. See the comparison table below to compare the new version with the previous version 2.0: LayoutAcademica Pro 3.0 features fluid responsive layout, so that your pages are perfectly displayed across mobile devices and tablets. Every detail of your website will look perfect and professional, no matter what resolution or screen size for visitors. 4 Homepage Templates The location and size of the home slide show can be easily changed thanks to the built-in Home 4 templates. By resizing the slideshow and location you can easily get 4 different home layouts. Below you can see the demo of all home templates: default full-view slideshow in the top small slideshow headerist is neatly organized in the updated version 3.0 and fits a lot of information. You can view up to 3 menus: in the top bar, next to the logo and in the main menu bar. If you don't need a specific list, just disable it! From custom theme you can also hide a specific list on mobile devices, so visitors will only see one list optimized mobile. You can also view the call button on the right side of your logo, by adding a custom class of the .wpx button to the menu item. The layout of 3 CMS diagramcolumns can be easily adjusted thanks to the multiple page templates included in the theme. You can also change the layout across the entire seat just by leaving the left or right sidebar blank. This theme will also be automatically adapted - and will look great - across all devices, including your tablet and mobile. WooCommerce Ready-selling through your website? Accademia Pro 3.0 is fully compatible with the popular e-commerce plugin free WooCommerce.Build your store and start selling anything you want! Events integrated into a free calendar support events plugin allows you to use your Academica Pro 3.0- supporting site as a powerful event calendar with all the features you need. Quickly add events and view them on their own page or in widgets anywhere on your site. Customizing to match your custom live style allows you to make changes to the theme and get an instant preview. Customize Fonts, background, logo, menu, widgets and more, with each live preview. You can also set a custom color for each widget individually by choosing one of 5 preset widget styles: this is very useful, especially when you want to highlight the content of the specific widget - such as an ad! Another FeaturesAcademica Pro 3.0 is packed with many other useful features that will take your website to the next level: the parent page template - a simple but useful page template that displays all the subpages of a page. View the demo. Social icons widget area in the head - in the top menu bar you can add links to any social networks you want. Photo widget box - Bottom of the slide show on the front page lies 3 widget areas that you can insert a beautiful widget called a photo box that can be used to connect to any pages you want. Breadcrumbs - Accademia Pro 3.0 supports the Breadcrumbs feature of The YouTS SEO Plugin. MORE STORIES FAQ NO TOPICS WERE FOUND. Try a different search.
